Chairman Michael K. Powell  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Chairman Powell:

Please refrain from relaxing ownership rules for broadcasters. I think the previous experience with radio ownership has proven to be a huge mistake and an abuse of public trust in the FCC to maintain an adequate number of outlets for differing viewpoints.

I can certainly appreciate the economic efficiencies that would result from fewer owners with greater resources, however the consequence of that change is a reduction in free speech for the general public. To a certain degree, economic efficiency is another word for greater unemployment and less free speech.

Thank you for your attention to this matter.

Sincerely,

David W. Wormuth
